

The **Pursuit 3480 Center Console** incorporates the company's classic styling with a new 24.5-degree deadrise, notched transom and three-piece construction, said to deliver higher top speeds and improved performance under adverse conditions. All gunnel-mounted hardware is flush-mounted with pop-up cleats and lights. The fully bolstered gunnel sports a recessed bow rail on the interior of the gunnel cap. The leaning post converts from a full sit-down chair to a side-supporting leaning area in rough seas. Tackle storage and a 55-gallon livewell are built into the leaning post. An optional 35-gallon transom well is available. Four insulated, gasketed boxes hold fish, ice and gear. Contact Pursuit Boats, 3901 St. Lucie Blvd., Fort Pierce, FL 34946; (772) 465-6006; [www.pursuitboats.com](http://www.pursuitboats.com).
