

Pursuit Introduces New 3370 Offshore

Pursuit Boats proudly introduces its latest sport fishing boat packed with technological advancements in construction and design. The 3370 Offshore is the most recent addition to the 2004 Pursuit model year, incorporating a new "close molded" technology and several advanced production and manufacturing processes. The 3370 Offshore is the largest outboard powered boat Pursuit has built in the history of the company. Pursuit has taken advantage of all the available space with smart decisions for storage port and starboard under the berth and lounge, plus cubbyholes above and below that will hold different types of stores. The openness of the interior is a result of meticulous design and engineering. The bridge features a tilt away helm with horizontal instrumentation and a large area for flush mounting electronics. The captain drives from a mechanically actuated, oversized helm chair with an adjustable footrest below, which can swivel 360 degrees and move fore and aft. The standard hardtop comes complete with overhead storage, functional handrails and six rod-holders. The hardtop also features a built in pad for radar antennae and an aluminum plate for mounting a center rigger. The cockpit has a total of three foldaway seats, two facing aft to watch baits and one large seat in the transom for cruising. The fish box is insulated, gasketed and removable for access below. The 3370 Offshore can run far offshore for the canyon bite or the islands and make a great platform for any kind of cruising. The ride, performance and styling are sure to make this boat a prize among boaters and fishermen looking to move into a bigger express style machine.

SPECIFICATIONS

L.O.A. w/Pulpit	35'1"
L.O.A. w/o Pulpit	33'4"
Beam	10'6"
Hull Draft (to bottom of props)	2'4"
Fuel Capacity	310 U.S. gallons
Fuel Capacity with optional tank	344 U.S. gallons
Sleeping Capacity	6
Average Dry Weight (w/o engines)	9,750 lbs.
Holding Tank Capacity	18 U.S. gallons
Water Capacity	30 U.S. gallons
Clearance to top of windshield (from waterline)	8'7"
Clearance to top of hardtop (from waterline)	9'7"
Deadrise	21"

Note: All drafts and clearance at: 50% liquids. Specifications, standard, optional equipment, and prices are subject to change without notice. All measurements approximate.
