DC 265

DUAL CONSOLE

The 26 foot dual console is the first of its kind for Pursuit and absolutely sets new levels in design, engineering and performance for this growing segment.

The all new hull was specifically engineered for its' anticipated use; with family fun, casual fishing, cruising and marine sport utility in mind.

This beauty is backed by a proven production process that incorporates vinyl ester resins hand laminated using custom engineered fabrics, infused one piece structural stringer systems and infused bonded windshield systems. Pursuit power comes from tinned copper wire electrical harnesses custom built for each boat. All electrical components are connected to the harness with waterproof, plugged electrical connections. Custom fitted water and fuel systems with compression fittings, manganese bronze seacocks and strainers all come together to create a timeless proven approach to building a quality product that will keep its value for years to come.

Adding to the graceful lines and dependable construction of the DC 265 is the infused windshield frame matched with large tempered glass panels providing complete, unimpeded visibility forward, port and starboard. The windshield has a walkthrough center panel with a double latch and a wiper to starboard. Captain and passengers will also appreciate the uncluttered visibility from ample seating found throughout the boat. Luxurious bow seating, port side forward and rear facing seats along with recessed port and stern seating accommodates the entire family and friends on all your adventures. The DC 265 offers endless possibilities for exploration.
